My dad taught me how to build a quality product and always said, "measure twice, and cut once..." something I have never forgotten!

We're very thankful for the heritage we have been given, and we strive daily to serve our Lord Jesus Christ, provide for our family, and serve our customers the same way our parents did.

Amish Craftsmanship

Freeman Miller (my Dad), was building portable buildings ever since I was 12 years old. I remember coming home from school, grabbing a snack, and heading out to the shop to help Dad build storage buildings.

“We build all sizes,” we like to tell our customers. Don’t ask us what we have... tell us what you need! Our standard buildings start at 8’x8’ and go all the way up to 40’x 80’ or even larger. Whatever your needs are, we know how to make it happen!

We don’t have unsatisfied customers. If you are not thrilled with our quality product and the way your project was handled, we will fix the problem. To guarantee this, I can be reached at my mobile number, (573) 508-5359.

BARNDOMINIUMS

What's a

Barndominium?

A barndominium is a personal workshop and/or storage space that's connected to a house. While a traditional house usually features a small garage, a barndominium includes a large garage or workshop that's tailored to your unique needs. You can live in a barndominium full-time or use it as a weekend or vacation property.

Team Work

We purchase top quality materials, and use a highly trained workforce overseen by our Project Management Team to ensure you get what you deserve.

We build to meet
your needs

Custom Built

Our Design Specialists work with you to design your dream home, offering professional advice and expertise.

We'll design & build
your dream

Whether it's a weekend getaway, extra storage for toys and tools or your forever home, we can help you make your dream a reality.

Details Matter

The exterior design is just as important as your interior design and floor plan, we offer many options to make your place special to you.
