YEARS
OF LEGACY

About **Smithbilt** Industries, Inc.

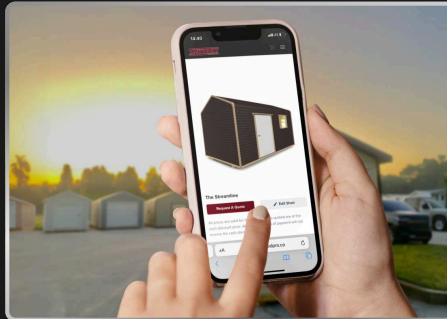

40

YEARS OF EXCELLENCE

PROUDLY

AMERICAN MADE

NATIONAL

TOP 10 USA

For more than 40 years, Smithbilt Industries, Inc. has been a trusted name in backyard storage solutions throughout Central Florida. As a family-owned and operated, American-made company, Smithbilt is proud to be Florida's leading manufacturer of backyard storage buildings and one of the top ten manufacturers in the United States.

Every Smithbilt building reflects a commitment to craftsmanship, durability, and long-term value — built with integrity and trusted by customers across the communities we serve.

Built to perform. Built to last.

SMITHBILT INDUSTRIES, INC.

Built on Family Values. Trusted for Quality.

Smithbilt was founded in 1982 by Donald and Jeanette Smith, built on a simple but powerful philosophy — produce quality products, operate with integrity, and treat people with respect.

Now led by second-generation owners Bryan Smith and his wife Melissa, the company continues to grow while staying true to its roots.

The third generation — Tyler Smith & Hayley Smith-Wheeler — is actively involved, helping carry the business forward and ensuring its values continue for years to come.

“

We don't just manufacture storage buildings. We build trust, relationships, and a legacy of excellence that spans generations.

THE 2026 CATALOG

THE IRON BULL™

Advanced Steel Framing for Performance

THE IRON BULL™ is Smithbilt's steel-framed building line, designed for customers who want enhanced durability, stability, and long-term performance.

DIMENSIONAL STABILITY

Steel resists warping, cracking, and splitting.

MOISTURE RESISTANCE

Resists expansion caused by humidity or moisture exposure.

SECURE CONNECTIONS

Screwed steel joints provide consistent structural integrity.

PEST RESISTANCE

Unaffected by termites and wood-damaging organisms.

HIGH STRENGTH-TO-WEIGHT RATIO

Strong support without added bulk.

THE LONGHORN

Eave Steel Model

Traditional styling combined with precision steel framing.

SHORTHORN

Streamline Steel Model

A clean, efficient design with the added benefits of steel construction.

Steel vs Wood Comparison

CONSIDERATION	STEEL FRAMING 	WOOD FRAMING 
Structural Consistency	Excellent	Proven & reliable
Moisture Sensitivity	Minimal	Managed with proper care
Pest Resistance	Impervious	Treated & protected
Connection Method	Precision-screwed	Traditional nailed
Best Suited For	Long-term durability, humid areas, minimal maintenance	Value-focused builds, traditional construction

Choosing the Right Fit

Steel framing may be the ideal choice for customers prioritizing long-term durability, low maintenance, or added resistance to moisture and pests. Wood framing remains a trusted, time-tested option that offers excellent performance and value when properly maintained.

At Smithbilt Industries, Inc., the right choice is the one that works best for you.

BULL SHED Limited Warranty

20 YEAR
SIDING WARRANTY

5 YEAR
WORKMANSHIP WARRANTY

Smithbilt Industries, Inc. warrants to the original purchaser that all aluminum siding installed on BULL SHED buildings will be free from rust for a period of twenty (20) years from the date of installation. Smithbilt Industries, Inc. further warrants workmanship against defects for a period of five (5) years from the date of installation.

This limited warranty applies only to defects in materials or workmanship under normal use and service and is governed by the laws of the State of Florida. The warranty does not apply to any product or component that has been altered, removed, relocated, or repaired by anyone other than authorized Smithbilt Industries, Inc. personnel.

Excluded from coverage are damages resulting from misuse, abuse, accident, improper maintenance, cosmetic wear, exposure to lawn sprinklers or irrigation systems, animals, vandalism, acts of nature, or any other causes beyond the manufacturer's control.

This warranty is non-transferable and is provided in lieu of all other warranties, express or implied, to the fullest extent permitted under Florida law. Smithbilt Industries, Inc.'s liability under this warranty is limited to repair or replacement of the defective product or component, at its sole discretion.

Wood Appearance & Natural Characteristics Disclaimer

Wood is a natural product, and variations in color, grain pattern, texture, knots, and overall appearance are normal and expected. Due to the natural characteristics of wood, some boards or components may exhibit discoloration, color variations, mineral streaks, or other visual differences that do not affect the structural integrity or performance of the material.

Smithbilt is not responsible for natural wood discoloration, color variation, weathering, fading, or other appearance-related characteristics inherent to wood products. These conditions are considered normal and are not covered under warranty.

For complete warranty terms, conditions, exclusions, and limitations regarding wood products and materials, please refer to the manufacturer's warranty documentation. A copy of the applicable manufacturer's warranty will be provided upon ordering your building and is available upon request.

Frequently Asked Questions

Answers to common questions about delivery, installation, and building performance.

FLOORS

How strong are the floors?

Floors are rated for 125 lbs per square foot, providing strong support for tools, equipment, and storage.

PERMITS

Do I need a permit?

Buildings are state-approved, but local permits may vary depending on your location.

INSTALLATION

How are buildings installed?

Our team places the building on blocks, levels it, and anchors it securely.

PRE-BUILT

Are sheds pre-built?

Yes. Most buildings arrive fully assembled, except for Double Wide models.

DELIVERY TIME

How long does delivery take?

Most buildings are delivered within 3–4 weeks after purchase.

WIND RATING

Are Smithbilt buildings built for Florida wind conditions?

Yes. All Smithbilt buildings are built to meet and exceed Florida Building Code requirements, providing dependable protection for rural properties, city locations, and waterfront areas across Florida.

Delivery Information

- Buildings are delivered and installed according to **Florida state-approved engineered plans**
- Delivery access must be clear and unobstructed
- Standard delivery and setup are included in the purchase price
- Additional charges may apply for extra blocking or mileage
